CITY OF HOPEWELL, VIRGINIA

2014 COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM ACTION PLAN

I. Introduction

As the lead agency for the City's Community Development Block Grant (CDBG) program, the City of Hopewell's Department of Neighborhood Assistance and Planning formerly known as the Department of Development is responsible for preparing the Annual Action Plan. The 2014 Annual Action Plan describes how the City of Hopewell intends to utilize \$188,908 of Community Development Block Grant (CDBG) funds for the 2014 program year, beginning July 1, 2014 and ending June 30, 2015. In adopting this Action Plan the Hopewell City Council has attempted to meet a broad range of needs as established in the Consolidated Plan 2010-2015. These needs are in the areas of: Community Development- Infrastructure, Housing Rehabilitation, Homeless, Families & Individuals and Non-Homeless Needs.

The City is grateful for all those who participated in the development of the 2014 Action Plan. Partners include, but are not limited to, the following:

- Hopewell Citizens
- Hopewell City Council
- CDBG Committee
- City Manager
- Local and regional non-profit organizations
- Hopewell Recreation & Parks Department

II. Background

The U.S. Department of Housing and Urban Development requires cities and counties to complete a Consolidated Plan to receive funds for the CDBG program. The Consolidated Plan is completed in five year intervals, and updated thereafter. The *City of Hopewell's Consolidated Plan* for 2010–2015 was completed and approved by HUD in 2010. The Plan adopted a broad range of goals and objectives to address priority needs related to housing and community development, homelessness, homeownership, and youth services. The following is a list of the five (5) major components that are featured in the 2010-2015 Consolidated Plan:

- 1. A housing market analysis;
- 2. An assessment of housing, homelessness, community development, and other related needs;
- 3. A description of the priority needs selected by the City;
- 4. A strategic plan to address priority needs;
- 5. An explanation of how the City of Hopewell will work with its partners in the public, private, and nonprofit sectors to carry out the Strategic Plan;

This Action Plan will describe the projects and activities planned for the upcoming program year. The 2014 Annual Action Plan is the last plan covered by the Consolidated Plan for 2010-2015.

III. Action Plan Elements

In accordance with HUD requirements, the 2014 Annual Action Plan includes the following components:

- Standard Form 424 (SF-424). See Part Three: Standard Forms;
- A description of the resources (Federal, State, local, and private) that are reasonably expected to be available to address the priority needs and specific objectives identified in the *City of Hopewell Consolidated Plan*;
- A description of the activities that the City of Hopewell will undertake during the coming year to address the priority needs and objectives identified in *the City of Hopewell Consolidated Plan*;
- An estimate of the number and type of families that will benefit from the proposed activities, the specific local objective and priority needs;
- A target date for completion;
- A description of the geographic areas of the City (including areas of low and moderate income concentration) in which the Department of Neighborhood Assistance and Planning will provide assistance in the coming program year, along with the rationale for the priorities for allocating investments geographically within the City;
- Activities that the Department of Neighborhood Assistance and Planning will take during the coming program year to:
 - 1. Address emergency shelter and homeless preventative needs of individuals and families;
 - 2. To provide counseling for those who experience or in danger of domestic violence;
 - 3. Address needs of persons who are not homeless.
- Actions proposed for the coming program year to:
 - 1. Improve literacy in Hopewell public school students;
 - 2. Meet the needs of the underserved;
 - 3. Foster and maintain affordable housing;
 - 4. Remove barriers to affordable housing;

- 5. Evaluate and reduce lead paint hazards;
- 6. Reduce the number of poverty- level families;
- 7. Develop institutional structure;
- 8. Enhance coordination between public and private housing and social service agencies;
- 9. Foster public housing improvements and resident activities;
- Required certifications;
- Specific CDBG narratives.

IV. Citizen Participation

In developing the Action Plan the City began with a mass mailing of invitations to local and regional non-profit organizations, Community Housing Development Corporations (CHDO's), Communities of Faith, and other organizations, inviting them to participate in the Action Plan update process. In total, over eighty (80) invitations were mailed. An invitation for organizations to apply for CDBG dollars was also placed in the local circulating newspaper and on the City's website.

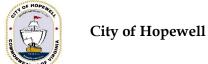

An informational meeting was held on January 21, 2014. The purpose of the meeting was to introduce the Community Development Block Grant and the Consolidated Plan to participants, to discuss the 2014-15 application, HUD requirements and federal guidelines, to disseminate applications and provide technical assistance. Four organizations attended the informational meeting.

Request for Funding Application Packets were made available from January 6, 2014 to March 3, 2014. Individualized technical assistance was provided to several organizations.

A letter of intent was requested from all organizations planning to apply for a grant by February 3, 2014. An ad advertising the proposed budget and public hearing date was placed in a local newspaper (Hopewell News) for two consecutive weeks. The City Council appointed CDBG Committee met to discuss projects and to decide on a budget to propose to City Council.

The City Council held a public hearing to consider the proposed budget on July 8, 2014. The budget was approved with a vote of 7 to 0. Copies of the 2014 Action Plan were made available for the required 30 day public comment period at the following locations:

- City of Hopewell Department of Neighborhood Assistance and Planning: 300 North Main Street, Room 321;
- Hopewell Redevelopment and Housing Authority: 350 East Poythress Street;
- Hopewell Community Center: 100 West City Point Road;

- Appomattox Regional Library: 245 East Cawson Street; and
- On the City's website www.hopewellva.gov/data/publish/article 62.shtml.

V. Objectives of 2014-2015 Action Plan

The Department of Neighborhood Assistance and Planning established several toplevel strategies to meet the priority needs described in previous sections. These strategies include:

- 1. Provide funding to The Crisis Assistance Response Emergency Shelter (C.A.R.E.S.) and the Salvation Army to assist in reducing the frequency and duration of homelessness.
- 2. Support efforts to address the needs of special populations, especially at-risk children, battered spouses and children, the elderly and the disabled.
- 3. Support repair of owner occupied dwellings for families considered to be low and moderate income and very low income.
- 4. Provide infrastructure improvements for street, sidewalk, and flood drainage systems in low- and- moderate income neighborhoods.

Section VI of this plan will list the proposed CDBG projects for the 2014 program year totaling \$188,908. A total of \$90,512 will be utilized from reprogrammed 2013-14 dollars.

VI. Description of Projects:

The proposed CDBG projects for the 2014 program year are as follows:

- 1. Provide \$15,000 to Smart Beginnings to the Hopewell-Prince George Community Planning Grant to provide capacity building, planning, and project management to coordinate programs and organizations in the City that provide early childhood development services. The target date for completion of this activity is May 31, 2015.
- 2. Provide \$3,000 to Piper Square Family Resource Center to provide job training to public housing residents. The target date for completion of this activity is May 30, 2015.
- 3. Provide \$2,000 to Hopewell Police Department Crime Prevention Program with equipment and announcements/printed media for neighborhood watch programs established in high crime areas throughout the City. The target date for completion of this activity is April 1, 2015...

- 4. Provide \$1,500 to the Salvation Army to provide emergency rent and utility payments for residents in danger of being evicted or termination of utilities. The target date for completing this activity is June 30, 2015.
- 5. Provide **\$4,000** to the **Hopewell Food Pantry** to provide food to seniors and the disabled. The target date for completion of this program is December 30, 2015.
- 6. Provide \$4,000 to C.A.R.E.S. to provide emergency shelter for homeless women and children. The target date for completing this activity is June 30, 2015.
- 7. Provide \$5,000 to Hopewell/Prince George Healthy Families to reduce incidences of child abuse in "at-risk" families. The target date for completing this activity is June 30, 2015.
- 8. Provide \$2,337 to Hopewell Respite Care Group Program to provide recreation, day care, education and cultural activities to the elderly and disabled. The target date for completing this activity is June 30, 2015.
- 9. Provide \$1,000 to the "Rainbow Summer Enrichment Program"-Department of Recreation and Parks. The target date for completing this activity is October 31, 2015.
- 10. Provide \$1,000 to the **Hopewell Youth Sports League** to provide recreational activity to boys and girls in low to moderate income households. The target date for completing this activity is May 1, 2015.
- 11. Provide \$2,500 to the **James House** to provide housing assistance to victims of domestic violence. The target date for completing this activity is June 30, 2015.
- 12. Provide \$2,000 to Community Action Program for Reading, Inc. to provide books and reading mentoring to elementary students in Hopewell public schools. The target date for completing this activity is June 30, 2015.
- 13. Provide \$25,000 to Project:homes, Inc., to provide home repair to homes owned by families that are low to moderate income and very low income. The target date for completing this activity is April 30, 2015.
- 14. Provide \$25,000 to Rebuilding Together Tri-Cities to repair homes owned by families that are low to moderate income and very low income. The target date for the completion of this activity is December 1, 2015.
- 15. Provide \$66,123 to complete the Trenton Street Phase II Infrastructure Project. The target date for the completion of this activity is June 30, 2015.

- 16. Provide **\$49,960** to complete the **Blackstone Road Infrastructure Project**. The target date for the completion of this activity is June 30, 2015.
 - \$40,512 reprogrammed funds from 2013 Freeman Street project and \$9,448 from 2014 budget
- 17. Provide \$50,000 to complete the **Arlington Road Infrastructure Project**. The target date for the completion of this activity is June 30, 2015.
 - \$50,000 reprogrammed funds from 2013 Freeman Street project
- 18. Provide \$20,000 for **CDBG Program Administration** to include the cost of implementing fair housing initiatives, and the administration of the program. The target date for the completion of this activity is June 30, 2014.

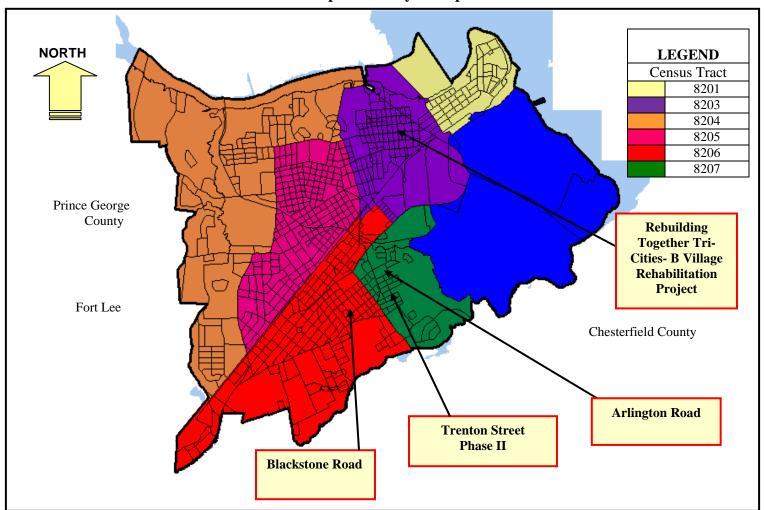

VII. Geographic Distribution and Rationale

Consolidated Plan regulations require the City to describe the geographic areas of the City (including areas of low-and- moderate-income concentration) in which it will provide assistance in the coming program year. The City must also provide its rationale for its priorities for allocating investment geographically within the City.

The City uses its allocation for low and moderate income persons living within the City or to provide funding for projects only within the HUD defined low-and-moderate income areas. Census data is used to ensure the neighborhood receiving a particular infrastructure project meets the low to moderate income requirements. The map below indicates the areas that have been identified as low and moderate income neighborhoods. Income verification applications and documentation are utilized for all other projects to determine eligibility of the beneficiaries.

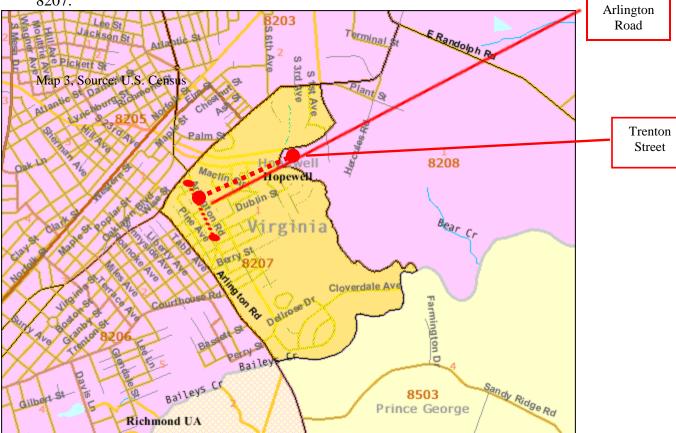

Map of the City of Hopewell

Map 1, Source: Hopewell GIS Mapping

Trenton Street is located in Census Tract 8207, Block Group 1. Phase I of Trenton Street was completed in fiscal year 2013-14. The second phase includes Carolina Avenue to Lincoln Place. Based on 2010 Census data the total population of Block Group 1 is 2,443. Thirteen percent (13%) of the population is White, eighty one (81%) are African American, and the remaining six (6) percent are Native American Indian, Native Hawaiian and other Pacific Islander alone, some other race alone or two or more races. The median household income is \$22,039, based on 2000 Census data. Map 2 below highlights the area designated as Block Group 1 in Census Tract 8207.

Blackstone Road and **Arlington Road** both are new infrastructure projects this budget year. Both roads have significant drainage issues which cause major flooding on the road and in private yards. Both projects will provide curb and gutter and the installation of drainage piping to improve water runoff and flow. The first task for both projects will be design and engineering.

Arlington Road is located in the same Census Tract as Trenton Street; Tract 8207. The income and population information is provided above. Blackstone Road is located in the 8206 Census Tract, Block Group 1. According to 2010 Census Data, the total population of this Block Group is 945 people. Fifty two (52) percent are Caucasian, thirty-nine (39) percent are African American, four (4) percent are Some other race alone, four (4) percent are Two or more races, and the remaining one

percent are Asian, American Indian and/or Native Hawaiian. The median household income is \$32,533 based on 2000 Census data.

Beneficiaries of the Proposed Activities

Each organization that applies for funding was asked to give projections of the number of persons, families, or units it will service in a program year. The table below shows the number of beneficiaries for the upcoming program year by organization.

FY 2014-15 PROJECTS	# of Clients based on requested amount			
CARES	8 adults, 6 children			
Community Action Program for Reading	3 children			
Elder Homes/Project: homes	4 houses			
Hopewell Food Pantry	100 seniors			
Home Visitation Program- Healthy Families	40 children			
Hopewell Police Department- Crime Awareness	62 families			
Rainbow Summer Program	75 children			
Rebuilding Together Tri-Cities	4 houses			
Respite Care Program	26 seniors			
The James House under-served	50 people			
Populations support services				
Piper Square Family Resource Center	5 residents			
Project Homes	4 houses			
Salvation Army	10 people			
Youth Sports League	800 children			

Table 2

X. Strategies to Improve Communities in the City of Hopewell: FY 2014-2015

A. Helping the Homeless

Citizens utilize the services of two regional shelters located in the City of Petersburg, a neighboring jurisdiction, the Crisis Assistance Response Emergency Shelter (C.A.R.E.S.) and the Salvation Army Men's Transitional Shelter.

C.A.R.E.S. provides emergency shelter to homeless women and children. In addition to shelter, C.A.R.E.S. provides its clients with meals, clothing, educational and job

training, life skills and counseling, service referrals, travel assistance, and childcare. It also operates a distribution center providing furniture, food, clothing, and appliances to its homeless clients and the community at large. Once at the shelter, children are able to begin school immediately. C.A.R.E.S continues to broaden its professional staff for counseling, mentorship and referral services to better prepare the family for reentry into society. C.A.R.E.S. operates the HMIS database on site and is an active member in the Continuum of Care- VA 509. The City proposes to fund C.A.R.E.S. \$4,000. The Salvation Army Men's Transitional Shelter did not request CDBG dollars this program year.

The Salvation Army Men's Shelter continues to operate, but due to the minimum funds received by the City's CDBG program, no longer request CDBG for shelter services. Instead, the Salvation Army utilizes Hopewell CDBG dollars to help families that are at risk of becoming homeless by providing emergency rent and utility assistance.

The City proposes to fund C.A.R.E.S. \$3,000 and the Salvation Army will receive \$1,500.

B. Helping Non- Homeless Persons/Families

<u>Families: Preventing Child</u> Abuse

Hopewell/Prince George Healthy Families will work to curtail the number of child abuse cases occurring within the City. According to Kids Count in Virginia, a statistical publication

published by the Annie Casey Foundation, the City of Hopewell ranked among the highest in the state for child abuse and neglect in 2000. The City will provide \$5,000 in CDBG funds to the Hopewell/Prince George Healthy Families to support their efforts within the community.

Healthy Families provides family education, counseling and referral services to promote positive parenting, to encourage health and development of the child, and to prevent child abuse and neglect. Healthy Families works in close collaboration with the John Randolph Foundation to provide the national model upon which this program is built.

All first time mothers that live in the City of Hopewell are screened and assessed using a program model that identifies risk factors for abuse and neglect. If they consent, mothers assessed 'positive' are offered an assessment for further determination for needed referrals and services. Participants are offered in-home visitations which support parents in parent-child interaction, development of the

child, education on parenting skills, and stress reducers. The program is designed for children to be monitored until the age of five (5), if considered necessary.

Healthy Families also provides parenting classes. The fathers of screened families will have a Fatherhood Coordinator to interact with and conduct home visitations. The Fatherhood Program and Home-Visitation is designed to encourage self sufficiency, empowerment, provide a safe environment, safety for children, parent-child interaction, produce children ready to enter school, and encourage fathers to be involved with their children. The Healthy Families model has been empirically demonstrated to effectively reduce juvenile delinquency over time and to reduce child abuse and the staggering costs associated with the maltreatment of children. There have been no cases of child abuse among families enrolled in the Healthy Families program since its establishment in the City.

<u>Domestic Violence Prevention,</u> <u>Awareness and Counseling</u>

Sexual and domestic violence affects us all; one in three girls and one in five boys will experience some form of sexual abuse before the age of 18. Domestic violence is the leading cause of injury to women in the United States today. The James House will provide client-centered, mission driven, and culturally relevant

counseling to persons and families that have experienced or witnessed domestic violence. The Intervention/Prevention program will help people that have been victimized create outcomes that address life-satisfaction, hope and optimism, empowerment and understanding of issues associated with domestic or sexual violence. **The James House** will receive \$2.500 in CDBG funds to carry out this much needed service.

Children in Low-to-Moderate Income Families

By providing CDBG funds to the Rainbow Summer Enrichment Program, the Youth Sports League, the City of Hopewell will continue to help financially disadvantaged youth enjoy educational, recreational and cultural programs throughout the year. While all the programs are geared to help youth, each is different and provides specific objectives and strategies to improve the future of Hopewell's youth. The following paragraphs will provide an overview of each program.

The Rainbow Summer Enrichment Program includes recreational activities and enhancement of the SOL morning program offered in Hopewell schools. It supports work completed in the previous academic year and in some cases may increase understanding of concepts that will be learned in the upcoming year. The program

also offers recreational activities that some children may not have access to under normal circumstances.

The program works in partnership with businesses in the community to offer free or subsidized services. Such businesses include the local bowling alley, Oaklawn Bowl, Fort Lee's Museum, Washington's School of Karate, Michael Grant's Karate, the Robert E. Lee Boy Scout Council and the Girl Scout Council. Free meals are provided through the United States Food Administration (USDA) program. The City will award the Rainbow Summer Program \$1,000 to provide recreational, cultural and educational activities for children from low and very low income children.

The Youth Sports League is sponsored by Hopewell Recreation and Parks. The league consists of baseball, softball, basketball and fall and spring soccer for kids ages 4-17 year of age. The program currently has 1,450 participants. In the past program sponsors have noticed over seventy (70) percent of the participants are from single family households and receive government assistance or their child is on free or reduced lunch through the public school system. This project will enable youth from low income families that could not pay registration cost to participate in the Sports League. Eligibility will be based on household size and income. This project received an allocation of \$1,000.

The Community Action Program for Reading (CAPR) is a new initiative that Hopewell CDBG dollars will fund this program year. CAPR will benefit Hopewell public school students from pre-kindergarten to eighth grade by providing a book each quarter. This book is provided to each child during school hours and volunteers read them during distribution. It is believed that providing the student a book of his/her own to take home and share instills in the family the importance of reading as a tool for lifelong learning. Program administrators contend that the book will provide a strong connection between home and school and aims to reiterate the parents as the first teacher.

Smart Beginnings Hopewell Prince George Community Planning Grant

Smart Beginnings is a local coalition of public and private organizations and citizens working together to ensure the region's children enter school healthy, well care for, and ready to succeed in school and in life. Smart Beginnings Hopewell Prince George represents the City of Hopewell, Prince George County, and Fort Lee. This region coalition is linked with twenty nine (29) other Smart Beginnings coalitions hosted by the Virginia Early Childhood Foundation (VECF).

The project will impact the community through the collaboration and community connections impacting early childhood care and education for young citizens, particularly those at risk for school readiness.

Senior Citizens

Twenty-nine (29) percent of the City's population is comprised of persons who are fifty (50) years of age and older. This percentage will continue to grow as baby boomers are moving toward retirement and people are living longer lives than in years past. A large proportion of these seniors will be living on fixed incomes and will need assistance in areas of home repair, health needs, and nourishment (food/water). This year, three organizations applied for CDBG funds for programs designed to help Hopewell's senior community.

The Hopewell Respite Care Group Program (HRCGP) is a community service program that meets the overwhelming needs of caregivers/partners of aged, infirmed and/or individuals with disabilities that reside at home or alone, the opportunity for respite relief and support. The intention of this service is to delay or prevent premature institutionalization of frail older and/or disable adults and to aide in preventing burnout of caregivers. The Respite Care Program will receive \$2,337. The program promotes independence and positive self-esteem. Members also participate in community outreach programs such as sending cards to community members that are ill/and or grieving, stuffing bags for children involved in the Rainbow Summer Program, and assisting in judging area poetry and Christmas card contests. Members attend cultural activities such as plays, dances, and participate in health fairs and lectures. The HRCGP is the only program of this kind in the City.

The Hopewell Food Pantry has operated since 1983. The Pantry provides emergency food to needy individuals and families in temporary crisis. Since the 2008 economic downturn volunteers at the shelter have recorded an over 100% increase in families requesting food assistance. Families that once donated food to the shelter are now requesting food themselves. The Hopewell Food Pantry Senior/Disabled Program will provide \$4,000 worth of food to seniors and/or disabled on a monthly basis.

Job Training/Readiness

The 2014 CDBG program will fund Hopewell Redevelopment and Housing Authority (HRHA) in the amount of \$3,000 to help operate the **Piper Square Family Resource Center**. The Resource Center will provide residents access to computers for training on basic computer skills and software programs. The Family Self Sufficiency Program will link participants to job preparation services and economic opportunities that will lead to employment with top communication/technology firms. Participants can participate in the Monday Smart Training Program and quarterly workforce development training. Funding will be used to provide training from the technology firms and for a portion of the salary of the Family Self Sufficient Program. The City is excited to partner with HRHA to provide much needed job readiness skills to public housing residents.

C. Fostering and Maintaining Affordable Housing

The Consolidated Plan examined the provision of affordable housing, public housing, or other assisted housing needs by focusing on improving the safety and livability of the City's neighborhoods through owner-occupied residential rehabilitation for low-income and elderly persons.

As identified in the Consolidated Plan, a top priority for the City of Hopewell is to stabilize its deteriorating neighborhoods and improve the overall condition of its housing stock. The physical condition of housing affects the quality of community living including the ability to attract businesses. The City is using a comprehensive approach to fulfill these housing priorities which is outlined in the following section.

Neighborhood Revitalization

A total of thirty six (36) homes have received repairs, totaling \$224,000 to provide repairs to homes owned by low to moderate income families since

This program year **Project:homes** formally called *ElderHomes* will provide home repair to service four (4) eligible owner-occupied homes. The cost of the project is \$25,000. Repair can include, but is not limited to:

- 1. Roof repair/replacement
- 2. Plumbing repairs
- 3. Structural repairs where hazards exist (i.e. ceiling, walls, floors, stairs, etc.)
- 4. Repair/replacement of heating and air conditioning systems
- 5. Locks and household security
- 6. Exterior repairs
- 7. Remove Slum/Blight

Persons that are interested in receiving home repairs are placed on a waiting list. Their income and homeownership status is evaluated along with other criteria to determine if they are eligible for the program. The initial evaluation is conducted by the City and the final intake process in handled by Project:homes. The participants for this year have not been finalized.

Rebuilding Together Tri-Cities will continue to provide housing rehabilitation for owner occupied housing in the City. Rebuilding's received CDBG dollars for the first time last year. Clients and residents were pleased with their work and the sense of community Rebuilding day brought. Their efforts will be in the Northwest B Village subdivision. A total of \$25,000 will be allocated to Rebuilding Together this program year.

The location of the Northwest B Village makes it an excellent choice to concentrate housing rehabilitation efforts. Located blocks away from the City's historic downtown where public and private investment has increased, it is the City's hope

that this reinvestment will help to improve housing conditions in neighboring subdivisions.

Rebuilding Together Tri-Cities is dedicated to The Department of Neighborhood Assistance and Planning and Rebuilding Together collaborated to determine the exact boundaries of this project.

D. Infrastructure Improvements within the HUD designated Low/Moderate Income Area

All improvements requested for the 2014-15 program year are located in HUD designated Low/Moderate Income Areas. The City receives infrastructure improvement requests all year. The requests are prioritized after a site visit and analysis by the City Engineer. Projects are then ranked based on severity and impact to the community. Demographic information on the areas to be served this year are located in Section VII of this report, Geographic Distribution and Rationale.

E. Overcome Impediments to Fair Housing Choice

An Analysis of Impediments to Fair Housing Study (AI) was complete in April 2010 by Bay Area Economics.

The AI examines policies and practices that may limit the ability of Hopewell residents to choose housing in an environment free from discrimination. Its purpose was to identify potential fair housing issues and impediments and to recommend remedies to these practices. The City partnered with the cities of Petersburg and Colonial Heights to host a fair housing seminar for employees and professionals that work in the housing profession. The City also sponsored fair housing classes facilitated by Virginia Supportive Housing. The City will work this coming year to implement the recommendations to further fair housing recognized in the AI.

Based on the analysis performed, the AI identified the most significant impediments to fair housing choice in Hopewell. Impediments can be caused by actions rooted in government policies and decision-making, or they can have root causes in actions by individuals or the ways that the housing market works. The analysis divided impediments by public sector and private sector activity. The tables below summarize the identified impediments, and recommended responses the City can make to reduce impediments.

Private Sector Impediments and Recommended City Actions

| Description | Description | Description | Private Sector Impediment

Private Sector Impediment	Recommendations that Address				
	Impediment				
Private Sector Activity: M	arketing of Rental Housing				
• There appears to be a lack of awareness about the needs of disabled tenants in Hopewell, given the dearth of accessible units advertised and the results of rental testing.	-				

Steps the City has taken to Overcome Barriers

holders often need modifications to

private market units.

Since the AI was published in 2010 the City has addressed one of the major possible impediments to job center accessibility. The AI noted that seventeen percent (17%) of renters in the City do not have access to private transportation (individual/family automobile) and that at the City had no public bus service. In 2011 the City partnered with the City of Petersburg to provide bus service through the Petersburg Area Transit System. The bus service has thirty-one stops in Hopewell along major corridors in the City and in neighborhoods with a high percentage of renters and low income residents. The transit system also extends to Petersburg, areas in Prince George County (Route 460) and Fort Lee. In 2014 the Hopewell City Council approved an additional year of public transit by funding a total of approximately \$180,000 to the regional partnership.

F. Evaluating and Reducing Lead-Based Paint Hazards

HUD regulations require that the Action Plan examine lead-based paint hazards and develop a strategy for reducing these hazards. This year ElderHomes will work to rehabilitate six owner occupied homes in the City. Three of these six homes were built prior to 1978 and will require the City to follow the Residential Lead Based Paint Hazard Reduction Act of 1992.

The City has 7,988 dwelling units constructed prior to 1980 (82% of all dwellings). Houses constructed after 1980 generally do not contain lead-based paint. It could be assumed than that all low-and-moderate income homes within the City contain at least some lead paint. This would equate to an estimated 2,400 units with lead base paint. Not all units with lead-based paint pose lead paint hazards. Lead paint presents a health hazard primarily to children under the age of seven and then mainly when lead paint is not in good condition, i.e. chipped, pealing. The city has not conducted a comprehensive testing for lead hazards in residential properties so it therefore impossible to estimate the number of lead base paint hazards. However, all contractors on CDBG related projects are required to have lead safety training certifications when working on projects that required housing rehabilitation, demolition, etc.

Hopewell's entire rental market is potentially Section 8. Rentals are inspected before entry into the Section 8 program and all exposed surfaces must be in tact (no peeling/chipped paint). Written information is shared with landlords and participants both landlords and participants must initial a form verifying that they have been made aware.

The Hopewell Redevelopment and Housing Authority ensure that lead-based hazards are eliminated in public housing. The entire public housing inventory has been tested per HUD requirements. Based on these results all lead based paint was either abated or encapsulated. This involved an expensive and expansive process that was completed in the mid- 1990's.

2014 Annual Action Plan

The City will also continue to collaborate with the Health Department and the Hopewell Redevelopment and Housing Authority to dispense information to at-risk residents warning them of the hazards posed by housing-related lead-based paint, especially for low-income families and children. Unfortunately, free lead based testing for children is no longer offered in the City of Hopewell. Funding from the Center of Disease Control (CDC) for Lead Paint programs has drastically declined, forcing cutbacks in the services provided in the health district. Funding shortages has resulted in free lead- base testing for children being offered only in the City of Petersburg because of the City's high concentration of elevated lead levels (venous blood level greater than 10 micrograms per deciliter). In the City of Hopewell, it is now the responsibility of the primary care physician to test for and educate a patient and family about the dangers of lead paint exposure.

The Hopewell Health Department is part of the larger Crater Health District, composed five neighboring health departments: (5) Greensville/Emporia, Prince George, Surry, and Petersburg (headquarters). In some instances case management services are provided by the Petersburg Health Department (headquarters of Crater Health District) for children with elevated lead levels as reported by their primary care physician. Through the Lead Track Report, a statewide tracking database for lead paint exposure, the Petersburg headquarters learns of lead paint cases in Hopewell and may have a nurse visit the child and family to educate them on the dangers of lead base paint for children ages (5) and up. Children under the age of five (5) are eligible for services through Women, Infants, and Children (WIC).

The Housing Authority continues to ensure that lead-based hazards are eliminated in public housing. The entire public housing inventory has been tested per HUD requirements. Based on these results all lead based paint was either abated or encapsulated. This involved an expensive and expansive process that was completed in the mid- 1990's. Hopewell's entire rental market is potentially Section 8. Rentals are inspected before entry into the program and all exposed surfaces must be in tact (no peeling/chipped paint). Written information is shared with landlords and participants both landlords and participants must initial a form verifying that they have been made aware.

G. Reducing the Number of Poverty Level Facilities

HUD regulations require that the Consolidated Plan contain an "Anti-Poverty Strategy." Each Annual Action Plan must also describe the City's proposed actions for the coming program year to reduce the number of poverty level families. Hopewell's strategy is to promote services and activities that support and enhance the quality of life in the community. The Department of Neighborhood Assistance and Planning coordinates with the Hopewell Redevelopment and Housing Authority and Hopewell Social Services who provide referrals for financial assistance and for emergency housing for those threatened with homelessness.

The City through CDBG funds supports several programs that promote individual and family self-sufficiency. For example, CDBG funds the Rainbow Summer Program, the Boys and Girls Club, and The Flagler Housing Center. These services provide emergency rent and/or utility payments, and limited childcare. Funding of these projects and activities helps to support the City's efforts to move low-income persons to economic self-sufficiency and reduce the number of families in poverty.

H. Developing Institutional Structure

The Department of Neighborhood Assistance and Planning continues to be responsible for the planning and implementation of the City's housing, economic and community development strategies. Since 2007 the composition of the Department has changed dramatically. The Engineering Staff once within the Department of Neighborhood Assistance and Planning was relocated to the Department of Public Works. The offices of the engineering staff have not changed so they continue to easily accessible for consultation for infrastructure projects.

The Department of Neighborhood Assistance and Planning has a Director of Development, a City Planner, Zoning Officer, an administrative assistant, and GIS Coordinator. In July 2007 the City hired a Grants Coordinator. Unfortunately, this person was terminated in September 2007. Therefore, the Director is responsible for the CDBG program among other planning and zoning duties. A CDBG part-time employee will be hired in the Fall of 2014.

The Director works to ensure collaboration, coordination, and communication with public and nonprofit sectors to improve the City's communities with the use of the Community Development Block Grant. Communication with private entities in relation to rehabilitation and revitalization is a function of the City Administration. After talks and a contract have been executed on this level, the CDBG can be included as a supplement to private funding.

The Director of Neighborhood Assistance and Planning works closely with, the City's Finance Director, City Attorney and the City Engineer to ensure all aspects of the CDBG program.

The Finance Director is authorized to approve IDIS draw-downs after the City Planner has verified that criterion has been met concerning low and moderate income ratios and documentation of payment.

The City Attorney is utilized primarily during the drafting of sub-recipient agreements. The Attorney reviews all agreements and approves them to form and legal sufficiency.

The Director works closely with the City Engineer in the administration and financial aspects of infrastructure improvement and street improvement projects that utilize CDBG funds. In instances when the City Engineer receives citizen or intergovernmental requests for improvements the requests are forwarded to the City

Planner for verification of CDBG status. The City Engineer facilitates community meetings to inform residents of upcoming infrastructure projects.

The Department of Neighborhood Assistance and Planning will continue to coordinate activities among departmental employees and other City staff when needed to properly implement CDBG programs.

I. Public Housing and Resident Initiative

As required by the Quality Housing and Work Responsibility Act of 1998, the Department of Neighborhood Assistance and Planning is coordinating the *City of Hopewell's Consolidated Plan* and the *2014 Action Plan* with the Hopewell Redevelopment and Housing Authority (HRHA). HRHA provides housing services to nearly 800 low-income families through Section 8 housing assistance and low-income public housing. The Authority owns and administers approximately 496 units of public housing and administers approximately 345 Section 8 Housing Choice vouchers/certificates.

A copy of this Action Plan was provided to HRHA for the thirty day (30) review period. The Department works closely with HRHA on redevelopment projects in the City and has worked closely on the redevelopment of Langston Park. CDBG funds were utilized for site preparation and the Department provided review of the Environmental Review.

The Langston Park Complex will replace thirty public housing units with fifty-six (56) units; thirty (30) subsidized units (current residents of Langston Park) and twenty-six (26) market rate units. This is the first conversion of Virginia public housing to Project-based Rental Assistance (PBRA) under RAD. To facilitate the transaction, Hopewell Redevelopment & Housing Authority (HRHA) partnered with Community Housing Partners (CHP), a local non-profit developer and owner of assisted housing.

The City of Hopewell will continue working with HRHA to continue to provide safe, decent and sanitary housing to low-income residents and to implement educational, empowerment, and homeownership initiatives. These are the goals and objectives in the Authority's strategic plan, which are consistent with the goals and objectives of City of Hopewell's Consolidated Plan.

J. Other Assisted Housing

The Department of Neighborhood Assistance and Planning continues its partnership with the Housing Authority to provide shelter, disseminate information and provide assisted housing alternatives to this population. Additionally, there are two (2) full-service nursing homes in Hopewell: Hopewell Health Care Center and the John Randolph Nursing Home. The Department of Social Services provides supportive services referrals and the Department of Recreation and Parks provides transportation and social activities in an effort to improve the quality of life for these City's

2014 Annual Action Plan

residents. The Department of Neighborhood Assistance and Planning consults with all of these agencies as part of its consolidated planning process.

K. Enhance Coordination between Public and Private Housing and Social Services Agencies

The Annual Action Plan must also describe the City's proposed actions for the coming program year to enhance coordination between public and private housing and social services agencies. In the Consolidated Plan's strategic plan, the Department of Neighborhood Assistance and Planning examined gaps in the institutional structure and developed actions specifically to enhance communication and coordination. The following are actions between public and private housing and social service agencies:

- 1. Begin informational meetings with the Director of City's Social Services Department to help coordinate efforts within the community.
- 2. As staffing and funding allow, continue to work with the City's Public Information Officer to communicate and market housing and community-development opportunities via the <u>City Currents</u>, a quarterly newsletter designed to keep citizens, business partners, and other community stakeholders informed and involved.
- 3. Provide other information pieces and outreach to the press concerning housing and community development issues.
- 4. Work with other organizations to provide educational seminars on issues such as lead-based paint hazards, historic tax credit programs, and redeveloping targeted or blighted neighborhoods to create and maintain home ownership opportunities.

L. Overcome Barriers to Affordable Housing

The Annual Action Plan must also describe the City's proposed actions for the coming program year to overcome barriers to affordable housing. Data presented in the recent Fair Housing Impediment Study conducted by Bay Area Economics indicates that housing is affordable in the City. The study examined the cost of homes within the City and rent payments against that of the median income of households. The Study showed that mortgages and rent payments are affordable for residents of the City. Moreover, the Study indicated that housing in the City is more affordable than that of several neighboring jurisdictions. In fact according to the HUD Affordability Calculator, Shortage Rate of Units Affordable to Very Low Income Renters Households, the City's affordable rate is lower than the national.

With this knowledge, the City will concentrate its efforts into providing education, counseling and mentoring classes in budgeting, credit worthiness and first time

homeownership through the Virginia Supportive Financial Foundations program. This program will be funded through Administration.

While mortgages may be affordable to some, reserving funds for home repairs for those on a fixed income such as the elderly and others that may be low income may not be attainable. To help these persons the City will provide emergency home repairs through ElderHomes.

M. Consolidated Plan Objectives & Implementation

The tables on the next pages show the City's Consolidated Plan objectives and the projected number of units to be served each year during the Consolidated Plan timeline. It also shows the number of units that will be served this program year and the amount of funding for each project.

Consolidated Plan Ob	jective	es & Imple	mentation

N. Performance Measurement System

The United States Department of Housing & Urban Development (HUD) has developed a performance measurement system to be utilized by all localities receiving CPD funds. This system will enable HUD to collect information on the outcomes of activities funded with Community Planning and Development (CPD) formula grant assistance, and to aggregate that information at the national, state and local level. The outcome performance measurement system has three overarching objectives: (1) Creating Suitable Living Environments, (2) Providing Decent Affordable Housing. And (3) Creating Economic Opportunities. There are also three outcomes under each objective: (1) viability/Accessibility, (2) Affordability, and (3) sustainability. The program is set up that the three objectives, each having three possible outcomes, will produce nine possible outcome/objective statements within which to categorize grant activities.

All activities funded by City of Hopewell CDBG funds must meet at least one of these objectives and outcomes. HUD has offered a definition and example for each objective and outcome.

Objectives

Suitable Living Environment:

In general, this objective relates to activities that are designed to benefit communities, families, or individuals by addressing issues in their living environment.

Decent Affordable Housing:

The activities that typically would be found under this objective are designed to cover the wide range of housing possible under HOME, CDBG, HOPWA or ESG. This objective focused on housing programs where the purpose of the program is to meet individual family or community needs and not programs where housing is an element of a larger effort (such as would be captured above under Suitable Living Environment).

Creating Economic Opportunities:

This objective applies to the type of activities related to economic development, commercial revitalization, or job creation.

Outcomes

The outcomes are defined as follows:

Availability/Accessibility:

This outcome category applies to activities that make service, infrastructure, housing, or shelter available or accessible to low-and-moderate income people, including persons with disabilities. In this category accessibility does not refer only to physical

barriers, but also to marking the affordable basics of daily living available and accessible to low- and -moderate income people.

Affordability:

This outcome category applies to activities that provide affordability in a variety of ways in the lives of low-and-moderate income people. It can include the creation or maintenance of affordable housing, basic infrastructure hook-ups, or services such as transportation and day care.

Sustainability/Promoting Livable or Viable Communities:

This outcome applies to projects where the activity or activities are aimed at improving communities or neighborhoods, helping to make them livable or viable by providing benefit to persons of low-and-moderate income people or by removing or eliminating slums or blighted areas, through multiple activities or services that sustain communities or neighborhoods.

The projects for this program year all meet the performance measurement objectives. It is also anticipated that all activities will meet one or more of the performance measurement objectives. Each activity's objective(s) and proposed outcome(s) are provided in the table below.

Name of Project	Objectives			Outcomes			
	Suitable Living Environment	Decent Affordable Housing	Creating Economic Opportunities	Availability & Accessibility	Affordability	Sustainability: Promoting Livable or Viable Communities

Table 4

O. Housing and Community Development Resources

The CDBG entitlement amount for FY 14 for the City of Hopewell is \$188,908. Funds will provide decent housing, establish and maintain a suitable living environment especially for low- and- moderate income persons.

P. Funding Sources

Entitlement Grant (inc funds)	cludes reallocated

Total	\$ 188,908			
HOME	\$ 0			
HOME Program Income	\$ 0			
Total	\$ 0			
Total Funding Sources	\$ 188,908			

The Department of Neighborhood Assistance and Planning will not receive program income from prior years (not previously programmed or reported), nor does it anticipate any reprogramming of prior year funds. Current funding levels continue to be insufficient to solve the many problems faced by lowincome citizens.

The City of Hopewell anticipates that the following Federal, State, local, and private resources will remain available over the 5-year planning period to address priority strategies:

Federal Resources

Funds from HUD and any other Federal sources are available to address the Consolidated Plan's priority needs, such as grants and other revenues that may be available to provide funding to the City of Hopewell or other organizations within the City.

- a. Section 108 Loan Guarantee (Section 108): Through Section 108, HUD guarantees notes issued by units of general local government. These funds finance economic revitalization and development activities that include housing and rehabilitation of privately owned buildings for residential purposes; expansion of for-profit businesses; financing and rehabilitation of low-income and public housing; acquisition, construction, or rehabilitation of neighborhood and community facilities; site improvement on community-owned land leased to a developer for a commercial or industrial development project; site development; purchase of land or buildings for economic development; and infrastructure development that includes street reconstruction and/or sewer system repairs.
- b. Community Services Block Grant (CSBG): This program can fund activities to implement anti-poverty activities such as housing counseling, emergency assistance and other supportive services.
- c. Brownfields Economic Development Initiative (BEDI) Grants: BEDI grants target Economic Development Initiative funds to brownfields projects. BEDI grants are made to local governments for use in supporting brownfield redevelopment activities and projects financed in whole or in part with Section 108 Loan Guarantees.

- d. Economic Development Initiative (EDI): The Economic Development Initiative provides grants to be used in tandem with Section 108 guaranteed loans for economic revitalization projects. These grants will enhance the viability of such projects (through interest rate subsidies and debt service/operating reserves) and increase the likelihood that the Section 108 loans can be repaid from project revenue.
- e. Federal Historic Preservation Tax Incentives: Federal Historic Preservation Tax Incentives are available for buildings listed in the *National Register of Historic Places* or located in certain historic districts that are substantially rehabilitated for income-producing purposes according to standards set by the Secretary of the Interior.
- f. New Markets Tax Credit: This credit is expected to spur the investment of \$15 billion in new private capital into new markets. By making an investment in an eligible "Community Development Entity" (CDE), individual and corporate investors can receive a tax credit worth more than 30 percent of the amount invested over the life of the credit. Eligible CDEs include for-profit community-development financial institutions, for-profit subsidiaries of community development corporations, the U.S. Small **Business** Administration, licensed New Markets Venture Capital companies, and specialized small business investment companies.
- g. Public Works and Development Facilities Program: Grants are provided to help distressed communities attract new industries, encourage business expansion, diversify local economies, and generate long-term, private-sector jobs. Projects funded include water and sewer facilities primarily serving industry and commerce, access roads to industrial parks or sites, port improvements, and business incubator facilities. A proposed project must be located within or provide a substantial direct benefit to an area in severe economic distress, that is, one that is experiencing high unemployment, low per capita income, or sudden economic changes such as those caused by a military base closure.
- h. Technology Opportunity Program: This program provides matching grants to nonprofit organizations such as schools, libraries, hospitals, public safety entities, and State and local governments. Grant fund projects that improve the quality of, and the public's access to, education, healthcare, public safety, and other community-based services. The grants are used to purchase computer equipment and software, train staff and users, and provide connections to the Internet. Funds also support evaluation and dissemination of project findings.
- *i*. Home Repair Loan Program (Section 504): The Home Repair Loan Program is available to low-income and elderly people who prefer to stay in their current homes, though they cannot afford repairs.

- *j.* Housing Preservation Grant Program: This program also makes available funds to repair housing. Non-profits receive grants and they in turn make funds available to homeowners that cannot afford to make needed repairs.
- k. Head Start/Early Head Start: This program awards grants to local public and private nonprofit and for-profit agencies for comprehensive child development services for children and families. Intended primarily for low-income families, the program fosters the development of children and enables them to deal more effectively with both their present environment and later responsibilities in school and community life.

Local Public Resources

Local funds have also been used to address the Consolidated Plan's priority needs.

City of Hopewell General Funds: These funds support organizations that provide housing and/or supportive services to area residents including low-income families and persons. The City of Hopewell provides approximately \$1,000,000 annually to local outside agencies from general fund resources. Several organizations receive these funds:

- John Randolph Foundation
- Historic Hopewell Foundation
- Southside Virginia Legal Aid Services
- District 19 Mental Health
- Appomattox Regional Library
- Tim Reid Scholarship Foundation
- Hooray for Hopewell
- Health Department
- Arts & Humanities Grant HHF
- John Tyler Community College
- Richard Bland College
- Tax-Relief Elderly
- Virginia Historical Society
- Regional Med Flight
- Two for Life- DMV
- Sate/Local Hospitalization
- South Centre Corridors
- Petersburg Symphony

Virginia State University

Private Resources

Funds from private sources are also available to address the Consolidated Plan's priority needs from partners such as private lenders, nonprofit organizations, and citizens.

The John Randolph Foundation is a private organization that provides grants to other non-profit organizations within the community that focus on a broad range of issues such as safe housing, access to health care, enrichment programs for "at risk" youth, equipment for fire and emergency services, senior health programs and many other diverse community initiatives. Grants awarded for program year 05-06 had not been announced at the time of this publication. However, in past years the Foundation has given to the following organizations:

- Big Brothers/ Big Sisters Inc.
- Boys & Girls Clubs of Hopewell
- Central Virginia Health Services
- Southside Programs for Adult Continuing Education
- Tri-Cities Habitat for Humanity
- Hopewell Prince George Healthy Families
- The Salvation Army

Community Reinvestment Act Programs: These special programs promoted by local financial institutions are designed to assist low and moderate-income buyers and/or target low and moderate-income neighborhoods.

United Way: The United Way provides funding to local social services organizations, many of which are involved in housing or supportive services.

Private Contributions: Many nonprofit organizations rely heavily on private contributions. In addition to cash, contributions may include donated labor and materials.

R. Monitoring

The Department of Neighborhood Assistance and Planning undertakes grant monitoring to ensure the success of Consolidated Plan and Annual Action Plan projects and activities. This section describes how the Department of Neighborhood Assistance and Planning monitors all projects funded by the Community Development Block Grant (CDBG) program.

As the lead agency for the City of Hopewell, the Department of Neighborhood Assistance and Planning is continually honing its standards and procedures to monitor the performance and effectiveness The City Planner monitors all CDBG sub-recipient contracts.

Q. The Project Monitoring Process

All CDBG projects are assigned to the Housing & Grants Coordinator who monitors and reports on the progress of each project. When the Department of Neighborhood Assistance and Planning awards a grant, the City Planner develops monitoring schedule for each sub-recipient that includes the following items:

- Desk monitoring
- Quarterly performance reports

These are combined to provide a clear and timely picture of each sub-recipient's progress.

Monitoring of the Department of Neighborhood Assistance and Planning's subrecipient partners is not just a regulatory process or a fact-finding mission. Rather, it involves effective communication and cooperative, problem-solving relationships between the department and its sub-recipients. Project monitoring involves:

- 1. Service and support, not command and control: The goal of the Department of Development is to create a leadership style focused on providing service and management support.
- 2. Continuous improvement: The Department of Neighborhood Assistance and Planning views monitoring as an opportunity to provide ongoing technical assistance and support to help its sub-recipient partners reach their goals, reach Consolidated Plan goals, and improve service
- 3. Improved communication: Open and consistent communication is vital for the Department's sub-recipient partners to understand what must be achieved through service and support to the community as well as meeting the following primary goals:
 - Ensure consistency with primary objective—not less than 70 percent of CDBG funds used during the program year must be for activities that benefit low- and moderate-income persons.

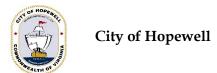

- Ensure each activity meets the criteria for one or more of the three broad national objectives.
- Comply with all other regulatory eligibility requirements for each activity.
- Comply with the Consolidated Plan regulations regarding displacement.
- Comply with all other applicable laws and program requirements.
- Ensure production and accountability.
- Evaluate organizational and project performance.

4. Success through:

- Pre-award screening, risk assessment, and orientation.
- Strong written agreements.
- Performance standards and program objectives.
- Defined monitoring visits for each sub-recipient partner: quarterly, semi-annually, and/or annually.

SEE ALL CERTIFICATIONS SIGNED AND DATED BY THE CITY MANAGER (ATTACHED)

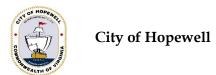

Certifications

Listed below are 11 separate certifications that the Department of Neighborhood Assistance and Planning must include in the Annual Action Plan. Part Three – Application and Certifications of this plan contain the certifications listed below.

- 1. Affirmatively Further Fair Housing
- 2. Anti-displacement and Relocation Plan
- 3. Drug-free Workplace
- 4. Anti-lobbying
- 5. Authority of Jurisdiction
- 6. Consistency with Plan
- 7. Section 3 of the Housing and Urban Development Act of 1968
- 8. Community Development Block Grant Certifications (multiple)
- 9. HOME Program Certifications (not applicable, since the City does not receive these funds)
- 10. Emergency Shelter Grant Certifications (not applicable, since the City does not receive these funds)
- 11. Housing Opportunities for Persons with AIDS Certifications (not applicable, since the City does not receive these funds)

Citizen Participation and Community Development Plan certifications are included in the CDBG certification requirements. The acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, are included in the Anti-displacement and Relocation Plan certification.

Certifications

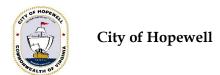

In accordance with the applicable statutes and the regulations governing the consolidated plan regulations, the jurisdiction certifies that:

Affirmatively Further Fair Housing -- The jurisdiction will affirmatively further fair housing, which means it will conduct an analysis of impediments to fair housing choice within the jurisdiction, take appropriate actions to overcome the effects of any impediments identified through that analysis, and maintain records reflecting that analysis and actions in this regard.

Anti-displacement and Relocation Plan – The City of Hopewell will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and implement regulations at 49 CFR 24; and the City has in effect and is following a residential displacement and relocation assistance plan required under Section 104(d) of the Housing and Community Development Act of 1974, as amended, in connection with any activity assisted with funding under the CDBG or HOME programs.

Drug Free Workplace – The City of Hopewell will or will continue to provide a drug-free workplace by:

- 1. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
- 2. Establishing an ongoing drug-free awareness program to inform employees about:
 - a. The dangers of drug abuse in the workplace;
 - b. The grantee's policy of maintaining a drug-free workplace;
 - c. Any available drug counseling, rehabilitation, and employee assistance programs; and
 - d. The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;
- 3. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph 1;
- 4. Notifying the employee in the statement required by paragraph 1 that, as a condition of employment under the grant, the employee will –

APPENDIX TO CERTIFICATIONS

INSTRUCTIONS CONCERNING LOBBYING AND DRUG-FREE WORKPLACE REQUIREMENTS:

A. <u>Lobbying Certification</u>

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, and U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

B. <u>Drug-Free Workplace Certification</u>

- 1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification.
- 2. The certification is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, HUD, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
- 3. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
- 4. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio stations).
- 5. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the

City of Hopewell

- change(s), if it previously identified the workplaces in question (see paragraph three).
- 6. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

City of Hopewell	
300 N. Main Street	
Hopewell, VA 23860	

Check \underline{x} if there are workplaces on file that are not identified here.

The certification with regard to the drug-free workplace is required by 24 CFR part 24, subpart F.

7. Definitions of terms in the Non-procurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantee's attention is called, in particular, to the following definitions from these rules:

"Controlled substance" means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

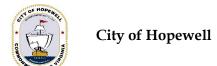

Conviction" means a finding of guilt or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

"Criminal drug statute" means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

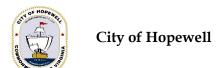

"Employee" means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) all "direct charge" employees; (ii) all "indirect charge" employees unless their impact or involvement is insignificant to the performance of the grant; and (iii) temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of sub-recipients or subcontractors in covered workplaces).
